7600 Series V2 Mask™

ORO-NASAL CPAP/BiLevel with AAV & Vents REUSABLE

Large, Medium, Small, Extra Small, Petite

PRODUCT FEATURES

- Five Sizes to cover a wide range of patient sizes.
- Face Piece with new Facial Sealing Flange is a single piece mask, made of clear soft Silicone Rubber.
- Anatomically Contoured Face Mask Design with ribbed support for a leak free comfortable fit.
- Anti-Asphyxia Valve (AAV) for patient safety - allows patient to breathe room air if the flow device malfunctions. Valve opens at mask pressures less than 3cm H₂O.
- Swivel Port Micro Vent Holes dissipate CO₂.
- 360° Dual Swivel Elbow Port with Detachable Swivel Port for improved patient freedom of movement. Color coded translucent blue.
- Easily adjustable, light weight, 4 strap Headgear for patient comfort, available in three sizes.
- New Quick-Release Strap Clips for quick & simple mounting & dismounting of headgear.
- Lightweight, easy to use, high quality mask & headgear.
- Reusable masks; steam autoclaveable, cold chemical, pasteurization safe & dishwasher safe.

Swivel Port - AAV Port	Polycarbonate Thermoplastic Translucent
Diaphragm	Silicone Rubber
Headgear	Polyurethane Foam Black, Nylon UBL Gray and Nylon Fabric Red
Headgear Hook	Nylon, Black
Headgear Strap Clips (4), Tri-glide	Polypropylene, Black

Oro-Nasal CPAP/BiLevel V2 Mask™ with Headgear

GENERAL INFORMATION

- **Intended Use:** The Hans Rudolph 7600 V2 Mask™ series are reusable, multi-patient use, adult Oro-Nasal CPAP/BiLevel mask which incorporates passive, continuous flow exhaust port built into the mask. It is intended for use with CPAP/BiLevel machines for treatment of obstructive sleep apnea, and for use with other similar ventilators that use this exhaust port configuration providing a minimum of 3 cmH₂O pressure measured at the mask.
- **Indications for Use:** The V2 Mask™ are for use on adult patients (greater than 30 kilograms weight) for treatment of Obstructive Sleep Apnea or any other conditions requiring CPAP/BiLevel or non-invasive ventilatory support at pressures greater than or equal to 3.0 cmH₂O at the mask in homes, hospitals and other clinical settings.
- **Environment of Use:** The V2 Masks™ are for use in homes, hospitals and other clinical settings by individuals that have at least minimal instructions or training on the use of the mask as well as the device to which the mask are intended to connect.
- **Cautions:**
 - a.) Federal law restricts this device to sale by or on the order of a physician.
 - b.) At low BiLevel pressures the flow through the patient circuit vent holes may be inadequate to clear all exhaled gas from the tubing. Some rebreathing may occur.
 - c.) Patients with facial hair, especially beards, may experience mask leakage which may require shaving the hair.
- **Warnings:** Refer to: Instructions for Use, Document No. 691270, shipped with product.
- **Contraindications & Complications:** Refer to: Instructions for Use, Document No. 691270, shipped with product.

MASK SIZING GAUGE

MASK SIZING GAUGE

Directions: Length measurements are used to determine the size of the Hans Rudolph Oro-Nasal mask that will best fit the patient. For measurement the patient's facial muscles should be relaxed and are closed. Place the Gauge to the deepest point of the nasal root depression and note the size indication where the gauge. The gray band outline indicates the size range.
